

Woodford Cedar Run Wildlife Refuge

MEMBERS & VOLUNTEER PRE-SALE

Monday, April 22nd - Wednesday, April 24th Pre-Sale Online Only, ends 5pm Wednesday Pick up at the Nature Center Friday, April 26th from 4pm - 6pm

Open to the Public:

Saturday, April 27th, 2024 10am-1pm Inside features our Native Plant Sale selections Proceeds from this event directly support Cedar Run's mission to preserve and protect New Jersey's native wildlife through education, conservation, and rehabilitation, along with the treatment and care of over 6,000 New Jersey native injured and/or orphaned wildlife we see annually. Woodford Cedar Run Wildlife Refuge is an IRS determined registered 501(c)(3) nonprofit organization. EIN# 22-2373291

The challenges facing our native wildlife and habitats continue to advance each year here in New Jersey. Fortunately, if you are reading this message, you are working to be a part of overcoming those challenges. As stewards of the natural world, we must all recognize the profound importance of native plants in sustaining healthy ecosystems. Planting native plants is an effective way to support the health and resilience of our natural environment, combat habitat loss and fragmentation, improve water quality, enhance climate resilience, and promote biodiversity conservation.

According to the New Jersey Department of Environmental Protection (NJDEP), our state loses approximately 15,000 acres of open space to development each year. Planting native plants in urban and suburban areas can create valuable wildlife habitat corridors that connect fragmented habitats and provide refuge for our native species.

Native plants have co-evolved with the local environment, forming intricate relationships with native wildlife, insects, and microorganisms.

Roots of resilience. Cedar Run's native plant sale & your impact.

These plants provide essential food and habitat for countless species, promoting biodiversity and ecological resilience. Native plants require less maintenance and are better adapted to our local climate conditions, making them more resilient in the face of environmental challenges such as droughts and extreme temperatures.

By incorporating native plants into our landscapes, we can create vibrant, sustainable habitats that support a diverse array of wildlife and contribute to the overall health of our communities.

Furthermore, the proceeds from our Native Plant Sale directly support Cedar Run's mission to preserve New Jersey's wildlife and habitats through education, conservation, and rehabilitation.

Your support is truly the cornerstone of our success, and we are profoundly grateful for your generosity, passion, and commitment to our shared mission. Together, we are making a tangible difference in the lives of native wildlife and the health of our environment.

With gratitude,

Executive Director

Explore More: Exciting Events & Activities at Cedar Run

Visit CedarRun.org/Events

Weekly Bird Walks

Every Tuesday 7:00 AM - 8:15 AM

Join us for weekly bird walks on the property of Cedar Run! Meet in the parking lot in front of the Nature Center, where we will walk around the Cedar Run property to look and listen for birds throughout the different Pine Barrens Ecosystems!

Homeschool Classes

Ages 5-10: 4/10, 4/11, 5/15, 5/16 Ages 11-13: 5/7, 5/14, 5/21, 5/28

Our educators will help your child explore and discover the world around them through hands-on activities & outdoor adventures.

Wildscaping for Wildlife: Virtual Education Series

Live Sessions April 8th, 15th & 22nd 7:00PM - 7:45 PM

Join us for the remaining sessions Wildscaping for Wildlife: Virtual Education Series, a six-part exploration into the world of Wildscaping – where nature meets landscaping and the importance of planting with native plants.

Brunch with a Wildlife Rehabilitator

Saturday, April 13th 10:00 AM - 12:00 PM

Join one of our state- & federally-licensed Wildlife Rehabilitators for a delightful brunch featuring bagels, doughnuts, coffee, and tea. Following the brunch, embark on an exclusive and educational journey as you participate in an in-depth discussion and tour of our Wildlife Rehabilitation Hospital, including Cedar Run's outdoor rehabilitation enclosures.

International Bat Appreciation Day

Wednesday, April 17th 7:00 PM - 8:30 PM

Join us at dusk on World Bat Day to see if we can discover any of these often misunderstood mammals. The evening will include a short hike using bat detectors and a presentation in our Covered Pavilion about the bats that call New Jersey home.

Citizen Science: Frog Watch

Saturday, May 11th & June 8th 7:00 PM

Join us for an exciting opportunity to learn about amphibian conservation and contribute to vital research efforts aimed at protecting frog populations in our local area.
